## MISCELLANEOUS.

## TWENTY YEARS AGO

Physicians sent their throat and lung patients toward the tropics. Now they send them northward—to the mountains—up among the pines. Sufferers from throat and lung troubles experience a wonderful sense of relief in the fragrant atmosphere of a pine country.

## Santa Abie

Is prepared from Abietine Balsam, obtained from a rare species of pine found only in California and Norway, and from Yerba Santa, better known as Mountain Balm. Soothing, healing and restorative, Santa Abie is a matchless remedy for coughs, colds, croup, asthma, bronchitis and all other diseases of like character. Easy to take, quick in its effects. Every bottle guaranteed.

FOR SALE BY

S. J. HODGKINSON.

CHARLES E. GLOUGH,

BUILDER, ARCHITECT.

— RENO, NEVADA. —

Plans for buildings and estimates of cost furnished. Contracts taken for any size or style building. Residence near the University. Orders for sundries and shoe store will receive prompt attention.

## Mistake, Mistaken.

The use of this word seems to be so anomalous as to need some inquiry and explanation.

I may be mistaken, for I continually make mistakes. But when shown to have been mistaken I own myself in error. Yet, if I am mistaken, is it not the error of him who mistakes me? But it may be that I am right and that he is mistaken, though I suppose that I ought to take him aright and not mistake him. Nevertheless I often have to say in argument: "You were quite right. I was mistaken."

In a word, though he who mistakes must be in error, our common use of language considers him who is mistaken to be so.—Notes and Queries.

## Two Things Without Patents.

The floating dock and the typewriter are among the many important inventions that were hit upon by men who have made no attempt to patent their ideas. A photographer conceived the idea of the floating dock before the device was perfected and put to practical use, and a naval officer thought out a practical typewriter, but was persuaded by friends to abandon his invention as a thing that nobody could be induced to use.—New York Sun.

## Some Old Cheeses.

In the cheese regions of Switzerland a custom formerly prevailed for the friends of a bride and bridegroom to join in the presentation on their wedding day of an elaborate cheese. This cheese was used as a family register, on which the births, marriages and deaths were recorded. Some of these old cheeses date back to 1669.—Exchange.

## The Russian Spoon.

The Russian spoon, with its oddly twisted handle, is greatly affected by our New York swells. It is made of gold and costs a lot of money. The bottom of the bowl is made of Russian enamel in green and red and has the appearance of being set with emeralds and rubies.—Once a Week.

The threads of fungus which flourish upon the roots of oaks and beeches surrounded by decaying leaf mold turn the latter into nourishment for the trees and the seedlings of the trees are unable to grow and such surroundings without the aid of the fungi.

## HALE METHOD OF PAINLESS FILLING.

## NEW DEPARTURE IN DENTISTRY!

DR. PORTER HAS RETURNED for the purpose of advertising the

## "Hale Method of Painless Filling."

Absolutely painless without Chloroform, Gas, Ether or Cocaine.

OFFICE IN STEELE BUILDING, COMMERCIAL ROW, RENO.

Here are a Few Testimonials from Citizens Who have Already Tried the Method:

Dr. Porter—DEAR SIR:—It affords me pleasure to say that the Hale method of painless filling opens a new era in the dental world. After having several very sensitive cavities filled by you with gold and amalgam with gratifying results, I am of the opinion that the method is far beyond competition.  
 PATRICK HENRY.

Dr. Porter—DEAR SIR:—In answer to your request for my candid opinion as to the Hale method of painless filling, I beg to state that I went to one of Dr. Leek's finest operators in San Francisco, and he filled several teeth for me with more or less pain; but when he came to the one you have just filled, it was simply impossible for me to endure the torture, consequently I asked him to stop, which he did. I thought I would be obliged to have the tooth extracted. I wish to state that in five minutes after you commenced to operate there was positively no pain; it felt just as if you were cutting a piece of wood. I am so highly pleased with the manner in which you filled the tooth that I feel it but just to express my appreciation of the method. It is all you claim for it.  
 CHARLES HOPE.

Dr. Porter—DEAR SIR:—I have had teeth extracted before by so-called painless methods, but you are the only operator who has extracted teeth for me without pain. Your method of extracting surpasses my most sanguine expectations.  
 MRS. H. PRENTISS.

Dr. Porter—DEAR SIR:—It gives me great pleasure to state that I am thoroughly convinced of the excellence of your method. I expected to suffer dreadfully having the cavity filled, as it was the worst one I had to have done. In about five minutes after you began to work on it I was satisfied that it would not hurt, which it did not during the entire operation. The tooth you extracted is one I have been dreading for eight years, and after consulting dentists in Sacramento, who advised me not to have it removed, as the ordeal might prove injurious to my health and also disfigure my face. You extracted the tooth without a particle of pain, and I will have no further dread of the dental chair, providing I can obtain the Hale Method.  
 MARY E. FLECKENSTEIN.

Dr. Porter—DEAR SIR:—After using Hale's Painless Method as administered by you in the extraction of teeth, I can bear testimony that the results are satisfactory, and that teeth can be extracted painless by said method.  
 Respectfully yours,  
 HENRY J. NEYLAND.

Dr. Porter—DEAR SIR:—I believe that the Hale Painless Method of filling is destined to lead the world in its special field of usefulness. I am particularly impressed with it, owing to the fact that one does not lose consciousness while having teeth filled, and at the same time does not suffer a particle of pain. You are at liberty to refer any one who contemplates having sensitive teeth filled to me.  
 JOHN SHERITT.

## FURNITURE.

FRIDAY, MAY 12, 1893.

THE WEAVER VOTE HELPED THE SILVER CAUSE.

That the vote for Weaver helped the silver cause is asserted by the advocates of free coinage in all parts of the country, and denied by the gold men of the old parties. Those who cling to the old parties whether those parties do right or wrong claim that because Weaver had no hope of being elected it was folly to vote for him. They say a vote for Weaver in a Democratic state was a vote for Harrison, and in a Republican state a vote for Cleveland. Here in Nevada the Republicans and Democrats who claim to favor silver by supporting presidential candidates who are opposed to its remonetization, or, to say the least, refuse to treat silver as money, say that Bartine was as true to the silver cause as a Republican as Stewart is as a Silver man, and that Hagerman or Woodburn, if elected, would do as much to remonetize silver as Newlands, the Silver party candidate.

To refute these allegations, so far as they relate to Stewart and Bartine, it is only necessary to refer to the record. Bartine as a Republican obligated himself to abide by the caucus decrees of his party. The caucus decided to elect a confirmed goldbug speaker of the house of representatives, and Bartine as representative of a silver state voted for him. In the house of representatives last July Bartine declared that the remonetization of silver was more important to the people than the success of any political party, yet in the face of this declaration he advocated from the stump in the mining towns of Nevada the success of a party whose representatives gave only nine votes for the remonetization of silver in the house of representatives, and whose secretary of the treasury, like his successor, refused to recognize silver as money in redeeming the notes and canceling the obligations of the government. On the other hand, Stewart will not be bound by the decrees of King Caucus. He will not attend a convention known to be opposed to the remonetization of silver and pledge himself to abide by its decisions, which he knows in advance will be detrimental to the interests of his constituents. He will not while advocating free coinage use his voice, vote and influence to keep a political party known to be opposed to it in power.

What Hagerman or Woodburn would do if elected can only be surmised. Both are allied with parties whose leaders are opposed to free coinage, and, as each upholds the principles of his party, the inference is that he would vote as the caucus decreed. Like Bartine, both gentlemen say they are for free coinage, but they advocated the election of presidential candidates who are not, and in doing so were, to say the least, inconsistent. Newlands, recognizing the fact that the financial question is paramount to all other political issues, declared for free coinage and pledged himself to use all honorable means to secure it, regardless of its effect on the Democratic or Republican parties. Like Stewart, he will not meet in close assembly with the leaders of a party that he knows is opposed to the remonetization of silver and secretly concoct schemes to perpetuate the power of that party and openly vote as the caucus decrees, pleading in extenuation when arraigned for inconsistency by his constituents that party exigencies required him to do so, and that he was compelled to obey the mandates of King Caucus.

The course of the present administration shows that it is no more friendly to silver than that which it succeeded. Carlisle, whether from conviction or in obedience to a ukase from the White House, is doing exactly as his predecessor, Foster, did under Harrison. Silver was treated as a commodity by Harrison, as it is by Cleveland, so that silver men gained nothing by the defeat of one and the election of the other. They proved, however, by giving the electoral votes of several states to the candidate of a party which was organized only four months before the presidential election that they cannot be duped much longer by politicians who pretend to be friends of silver while endeavoring to keep its enemies in power. Had the people of Nevada, Idaho, Wyoming, Colorado, Kansas and North Dakota given the electoral votes of those states to either of the old party candidates, knowing that neither was friendly to silver, what excuse could their senators and representatives in congress give for advocating the remonetization of silver or opposing the repeal of the Sherman act.

## THE LOUISVILLE GATHERING.

J. S. Clarkson, who was assistant postmaster general under Harrison, and resigned the position when he had turned fifty thousand "Democratic rascals," as he called them, out of office, was elected president of the Louisville gathering to inquire into the cause of the death of the old Republican party last November and conduct the funeral services. In his obituary which had been taking place in politics for years. This was the first serious affection of the Republican party, the first seeds of the disease which resulted fatally. He did not dwell so long on the demise of the old Republican party as on the birth of the young Republican party, which event occurred on southern soil. This young party will not revive sectionalism nor raise the bloody shirt. It will say the

negro question is settled by being merged in the broader one of equal rights to all persons. The Democratic party accepts the negro as a voter and public opinion on the negro question is dividing. The country, he claims, will depend on the Republicans in congress for defense from threatened harm. They will provide, with the aid of conservative Democrats, some provision in substitution for the Sherman act, which will preserve the continued parity in the value of gold and silver.

Mr. Clarkson referred to the adverse balance in foreign trade in the first four months of Cleveland's administration of \$80,000,000 against a favorable balance of \$70,000,000 in the first four months of Harrison's administration. As the McKinley bill was not enacted in the first year of Harrison's administration, and has not been repealed since Cleveland became president, the allusion may indicate an abandonment of the high tariff on tin plate or possibly was meant to convey the idea that the young Republican party would join the conservative Democrats in framing a new tariff bill, as he intimates they will do in settling the financial question. He has not much confidence in the old Republican leaders, but he has high hopes that the young party will have greater courage in cardinal things and larger tolerance in minor things than the old party.

That the young Republican party born in Louisville will endeavor to profit by the mistakes which resulted so disastrously to the old party is evident as it favors the correction of many abuses for the existence of which the old party was responsible.

The Chemical National Bank and the Columbia National Bank of Chicago, the Capital National Bank of Indianapolis and R. R. Robinson & Co., bankers and brokers at Wilmington, have failed. The stringency in the money market east, caused by the disuse of silver as money of ultimate redemption by the government, is having the effect which the advocates of the double standard predicted. If the banks and bankers which have to close their doors had plenty of silver dollars or silver notes they would not be obliged to suspend.

## A DELEGATE IN A RAGE.

Rawlins of Utah Has a Disagreement With the President.

## REVOLUTION IN NICARAGUA.

The Republican National League Adjourned.

## DELEGATE RAWLINS.

An Account of His Trouble With the President.

WASHINGTON, May 11.—The evening papers have an account of the trouble between the president and Delegate Rawlins. As a result of the disagreement between himself and President Cleveland Delegate Rawlins of Utah telegraphed Governor West the resignation of his seat in Congress. The trouble was over the distribution of federal patronage in Utah, and it is said hot words passed between the two and there was an exciting scene. Certain it is that when Rawlins left the president's room his face was flushed with anger, and he was laboring under great excitement. The incident occurred last Saturday. Rawlins had two or three previous interviews with the president, and made certain recommendations for appointments in his territory. He came to see what action Cleveland was going to take in these cases, and was fortunate enough to have a private conference with the president.

He soon discovered that President Cleveland had his own views on the subject of appointment to office in Utah. Rawlins started in to argue his case and to show why he was right. The president cut him short, and intimated that there were other persons and other interests besides those represented by Rawlins which would have to be consulted.

The delegate's temper was aroused, and, although the president simply told him what he told all the members of congress, Rawlins gave it as his opinion that his recommendations should carry more weight. One word led to another, until finally Rawlins, worked up into a passion, told the president that if his word would not be taken with regard to Utah matters and politics he could find some one else to consult. He went at once to the telegraph office and wired his resignation.

National Republican League.

Special to the JOURNAL.]

LOUISVILLE, May 11.—By to-morrow morning the army of Republicans which has been enjoying Kentucky hospitality the past few days will have disappeared. The convention of the national Republican league adjourned this afternoon to meet again the second Wednesday of next May in Denver.

At to-day's session William W. Tracy of Springfield, Ill., was elected president for the ensuing year. His only opponents in the contest were M. H.

DeYoung, of the San Francisco Chronicle, and General Daniel Hastings of Pennsylvania. W. I. Squire of Toledo, who has been here since Sunday making a fight for the position, withdrew from the struggle, greatly to the surprise of all. In withdrawing he said he wished to throw his strength to Mr. DeYoung. Tracy received 902 votes, Hastings 413, and DeYoung 404.

There has been a great deal of adverse criticism upon the leaders of national reputation for ignoring the convention. It was announced before the convention that General R. A. Alger, G. Sloat Fassett, Thomas B. Reed, Governor McKinley, John M. Thurston and others would be present, but not one of them came.

Another cause for complaint was that members of the Republican national committee, with few exceptions, left the city as soon as the committee adjourned.

When the convention was called to order this morning it was noticed that no parliamentary rules had been adopted for its guidance, and on motion of President Burke of the college clubs the rules of the fifty-first congress—Tom Reed's congress—be adopted. This motion was carried amid tremendous cheers.

The report of the committee on credentials was adopted, also the report of the committee selecting Denver as the next place of meeting.

The new president, upon being escorted to the chair amid a storm of applause, made a brief speech thanking the convention and assuring the members that the young Republicans of Illinois would see to it that that state would soon resume its former position in the Republican column.

The convention adjourned this afternoon.

## The Trial of Rippey.

Special to the JOURNAL.]

SAN FRANCISCO, May 11.—In the trial of W. C. Rippey, charged with an attempt to murder John W. Mackay, the defense to-day announced that they would endeavor to prove insanity when the crime was committed. Various witnesses were called who told of Rippey's vagaries and erratic conduct on various occasions. Then Rippey was called to the stand, and he told with all the garrulosity of an old man the story of his life. He came to California first in 1849 and engaged in various enterprises. In 1877 he began to dabble in stocks and lost heavily. For years he fought poverty and starvation. He thought of suicide often. He felt an enmity toward Mackay. He had no recollection whatever of the events of the morning he shot him. He had made no plan to kill him. He never was drunk in his life, and never had trouble with any man in recent years. Rippey was cross-examined, but not very severely, and the court adjourned till to-morrow.

## Made Them All Insane.

LITTLE ROCK, May 11.—Two weeks ago Jeff Barthel became insane and drowned himself. The suicide preyed on the minds of his two brothers and both became insane and had to be locked in the Morrilton jail. Yesterday they were allowed the privileges of the corridor and the one named John went into the cell occupied by Frank Hickey, the alleged murderer of John M. Clayton. While engaged in conversation he suddenly became violent and sprang upon Hickey with the ferocity of a tiger and beat him severely about the face and head and sinking his teeth in his shoulder bit out a piece of flesh about the size of a walnut. The sheriff and others finally reduced the lunatic to submission.

On Monday Joe Barthel, another brother, went to look after the effects of the brother who suicided. He immediately became insane and is now in a pitiable condition.

## BORN.

HOLMES—In Reno, Nevada, May 11, 1893, to the wife of A. W. Holmes, a daughter.

TAYLOR—In Reno, Nevada, May 9, 1893, to the wife of L. H. Taylor, a daughter.

## DIED.

BERRY—In Reno, Nevada, May 11, 1893, Mrs. Jane Berry, a native of Glasgow, Scotland, aged 54 years and 1 month.

The deceased was the mother of Mrs. Fred Kline, from whose residence, corner Sixth and Vine streets, the funeral will take place at 2 p. m. Saturday.

## PEOPLE FIND

That it is not wise to experiment with cheap compounds purporting to be blood-purifiers, but which have no real medicinal value. To make use of any other than the old standard AYER'S Sarsaparilla—the Superior Blood-purifier—is simply to invite loss of time, money, and health. If you are afflicted with Scrofula, Catarrh, Rheumatism, Dyspepsia, Eczema, Running Sores, Tumors, or any other blood disease, be assured that

## It Pays to Use

AYER'S Sarsaparilla, and AYER'S only. AYER'S Sarsaparilla can always be depended upon. It does not vary. It is always the same in quality, quantity, and effect. It is superior in combination, proportion, appearance, and in all that goes to build up the system weakened by disease and pain. It searches out all impurities in the blood and expels them by the natural channels.

## AYER'S Sarsaparilla

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price 25¢ per bottle, 60¢ per dozen. Cures others, will cure you.

## A GENTLE WOMAN

Wishes a toilet cream to promote that

Brilliant Transparency of the skin, which is the true beauty of the complexion. She wishes it to have the true fragrance of the flowers and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

## BREVITIES.

The Truckee is booming.  
Dr. Porter fills teeth without pain.  
Governor Colcord was in town yesterday.  
Garden tools and garden hose at Lange & Schmitt's.  
Al White is having the interior of the Palace hotel repainted.  
There is a message at the telegraph office for E. E. Elsworth.  
Attorney-General Torreyson arrived from Carson last evening.  
Crockery and glassware at San Francisco prices at Lange & Schmitt's.  
County Commissioner Klein of Esmeralda county spent yesterday in Reno.  
Eczema or salt rheum yields surely to a persevering use of Ayer's Sarsaparilla.  
Mrs. Jennie Lewis has returned from San Francisco where she spent the winter.  
Dr. Porter extracts teeth without pain. Office, Sunderland building, Virginia street.  
If you have not paid the license and your dog is missing you may find him in the pound to-day.  
Ex-Governor Jewett Adams and W. E. Shanon were passengers on last evening's V. & T. and proceeded on to San Francisco.  
The rate of interest is becoming more reasonable in this section. Golded loans are now easily placed at 8 per cent per annum.  
All who use Ayer's Hair Vigor pronounce it the best hair dressing in the market. Certainly no other is in such constant demand.  
Miss A. W. Greeley, daughter of R. P. M. Greeley, a former resident of Reno, was married in Oakland, Cal., last Saturday to C. H. Wedgewood.  
Governor Colcord and staff have been invited to participate in the Fourth of July celebration at Reno, and the governor has accepted the invitation.  
C. E. Clough is arranging for the erection of a small brick on his lot on West street, near Second, for the use of J. M. McCormack, the marble man.  
To prevent the hardening of the subcutaneous tissues of the scalp and the obliteration of the hair follicles, which cause baldness, use Hall's Hair Renewer.  
R. S. Gammons reports the Virginia road by way of the Geiger grade open and in good condition for travel. Teams went over the road yesterday without any difficulty whatever.  
The Burke Brothers and Richard Ryland are busy molding brick, and will start the fires in three kilns as soon as possible. At least 1,000,000 brick will be needed in Reno this year.  
The Geiger says two houses belonging to Mrs. Welch and Henry Gayle of Amdeed were burned last Wednesday morning. There was no insurance and the origin of the fire is unknown.  
Every brick mason, stone mason, painter and paper hanger in Reno is at work. The carpenters have not a great deal to do, but the sound of the saw and hammer will soon be the regular music of the day.  
By the efforts of Mrs. J. A. Todman the children of Tahoe City will enjoy the privilege of a six months' term of school. A teacher from Auburn has been engaged and the school will begin soon.—Tribune.  
The dedicatory services at the new Congregational church next Sunday will be of a most interesting character. Eminent ministers from Oakland and San Francisco will be present and assist in the service.  
Jas. Mayberry has been awarded the contract for excavating the cellar for the new building of the Reno Real Estate and Investment Co. and will commence work as soon as Payne removes the old buildings.  
When Mr. Newlands returns from San Francisco it is believed that he will push the new hotel and electric street railroad propositions. Reno is growing so rapidly that both are now an actual necessity.  
Ohio state experts are of the opinion that as a preventive of cholera the main thing is to provide a pure water supply. With good water even filthy towns will be comparatively free from the danger of an invasion of the Asiatic plague.  
The Silver State says there is a strong undercurrent of opinion against the theory that A. D. McCulloch of Star city committed suicide, and it is probable that a fuller investigation than that of the coroner's jury will be made.  
Professor Herbert Lang, an experienced mining engineer and metallurgist from Idaho, is at the Riverside. He will remain here a few days to consult with Professor Jackson of the university and R. D. Clark relative to a plant for a copper smelter which Mr. Beck contemplates erecting in connection with the Reno reduction works.  
T. K. Hymers has determined to rebuild, but will not again occupy the corner. The stables will be removed up on Sierra street near the William Tell house, leaving a lot 125x140 on the corner for other business bricks. The new stable will be 60x140, two stories, and constructed after the most modern plan. Tom expects to commence work next Monday.

## WORLD'S FAIR NOTES.

High Prices in the Windy City—Work at the Fair Grounds Unfinished—The Nevada Exhibit.  
From private letters received from James A. Yerington, Nevada's world's fair commissioner at Chicago, the Virginia Chronicle publishes the following extracts of interest to Nevada people:  
Under date of April 26, Mr. Yerington states he had secured a room with some friends, to be occupied during his stay, two blocks from the Illinois, Central, five minutes from the fair grounds and twenty into the city. The moderate price charged is \$25 per week, with dinner included. Rooms are renting all around that locality for \$7 per day. Mr. Yerington says the room that he was then occupying at the Richelieu, on the third floor, and in the center of the hotel, after May 1st, it would be \$20 per day, and had already been contracted for by two Californians for six months. The Palmer House is the only hotel advertising not to raise rents.  
Mr. Yerington relates: "Met J. W. Haines this morning for the first time. He struck a world's fair hotel, and as the plastering was still wet on the walls and not a fireplace in the building, he looked as though he was ready to go back to Genoa. Russell concluded to give up the idea of trying the same layout, and retained his quarters at the Palmer House."  
"A party of six came from Boston, having engaged rooms months ago, and on being driven to the house found the windows had not been placed in yet. I would advise Nevada people to postpone coming until June. I see by the papers that some have already started for Chicago."  
Buffalo Bill's wild west show, which is admirably situated at the entrance to the fair on sixty-third street, covers an area of three acres, and has a seating capacity of 10,000. Mr. Yerington thinks the show will take many thousands of dollars from the fair.  
Under date of May 3d, after giving an account of the opening day, relates that he had been busy all day putting the Nevada mineral exhibit in place. He has two assistants, and although with such a small appropriation and limited time, is really pleased with the display, and expects Nevada to be the first state in readiness in the mining building. He says:  
"I take into consideration the amount expended in the building by the others, seeing the time they have been at it, I think that with the amount of money they have had at their command, also assistants, they should have been much further advanced."  
A part of the Idaho agricultural exhibit was destroyed en route by fire, and part of their space on the main floor has been offered for the Nevada exhibit.  
Mr. Yerington has made arrangements for the special exhibit for Eureka, and for the exhibit of soda, salt, borax, etc., having obtained space and cabinets.  
The footprints, etc., from the Nevada state prison go into the building of ethnology, under personal supervision of the government. A great interest is being taken in them.  
Mr. Yerington made a contract for the state exhibit cabinets on the 21st of April, at \$24 apiece, and on the 25th the contractors informed him they wanted \$38.50. This he flatly refused to grant and brought the matter before the chief of the miners' building. He made an appointment with the contractors at which Mr. Yerington was present. The matter was also brought before the board of control, and by being persistent our commissioner carried his point, and insisted on a written agreement, getting the cabinets at the original figure.  
The board paid Mr. Yerington quite a compliment in the interest he has taken toward making a creditable showing, stating that Nevada would in many ways be ahead of states having large sums at their command and two years to work in.  
General Clarke and Mrs. Cagwin accompanied Mr. Yerington around the grounds for a few hours the day after the opening. The general had before claimed that he took no interest in the fair, but on the day in question he was thunderstruck with the beauty of the surroundings. Jim says the crush is great and the exhibition marvelous, which will be greatly enhanced as the season advances.  
KILLED BY THE CAR.  
About 12:30 o'clock Tuesday morning, while train No. 7, with Conductor Melvin in charge, was switching in Boca, a man was run over and killed. The Truckee Republican says it is the supposition that he was beating his way on a brakebeam when the accident occurred. Justice W. H. Hill, Constable C. W. Long and Dr. Currier went to Boca and held an inquest yesterday afternoon. It is said that those who were with the young man said his name was Fritz Simmons, but, as his companions continued their way eastward, no additional facts could be learned. No blame whatever is attached to the railroad boys.  
An insane Indian was brought to the Asylum from Pioche, Lincoln county, by Sheriff Turner. The cost to the State of bringing the Indian to the asylum was about \$225. As there is an Indian reservation in Lincoln county, and Indians are wards of the government, the expense of bringing the Indian here and treating him at the asylum ought to be paid out of the federal treasury. The superintendent of the asylum will not object to stand the cost.  
Everybody must stand in for the 4th. Reno will astonish even her own natives this year.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

## ABSOLUTELY PURE

### WEATHER CROP BULLETIN.

The Temperature Far Below the Normal in the Wheat and Corn States.  
The weather crop bulletin issued by the department of agricultural weather bureau has the following:  
TEMPERATURE.  
This is the third consecutive cold and unfavorable week throughout the principal wheat and corn-producing states. The week was unusually cold in the states of the upper Mississippi and Missouri valleys, where the daily temperature ranged from 5 degrees to 15 degrees below the normal, and closed with freezing weather, but the indications are, however, for more favorable conditions during the coming week in the Northwest. It was decidedly cold in the Rocky mountain districts, where frequent showers were reported, and slightly cooler than usual on the Pacific coast. The temperature was slightly below the average from the Lake region eastward to the Atlantic coast, while it was warmer than usual generally throughout the Southern states east of the Mississippi.  
Reports from Kansas and western North Carolina indicate that frost has caused considerable damage to fruit in those states, while injury is reported from the Ohio valley.

PRECIPITATION.  
Excessive rains occurred during the week over the central valleys, including the entire winter-wheat region, the northern portion of the Gulf states, and in the southern portion of the spring-wheat region. The rainfall was unusually heavy in the central Mississippi and Ohio valleys, interfering materially with farm work in the principal agricultural states. Considerable injury has resulted from floods and severe local storms throughout the West. There was also excessive moisture in the northern portion of the cotton region, where the land is too wet to work, and fears are expressed of an overflow in the lower Mississippi. Considerable acreage of oats and wheat is reported under water in Illinois, and the indications are that considerable injury to farming interests from high water will result in the states of the lower Mississippi and lower Ohio valleys in the low lands near the rivers.

There was almost a total absence of rain over the greater portion of the south Atlantic States, although refreshing showers relieved drought in the west portion of South Carolina and northern Georgia, but the drought continues in the coast counties of South Carolina, Georgia and northern Florida. There was a slight excess of rain in South Dakota and in the southern portion of Minnesota, where the ground is already filled with moisture, and spring seeding is delayed.  
Less than the usual amount of rain fell in the Pacific coast states, but the reports indicate that there is ample moisture in those sections, and the weather during the week was generally favorable except in northern California where cool drying winds caused much injury to growing grain.

To the Public.  
I have lived in Washoe county for twenty-four years and have never yet knowingly violated any provision of the laws of the land.  
I am selling goods to the people at prices fifty per cent below anything ever before sold in the town, and am thereby interfering with the business of those who for years have been fleecing from the poor two prices for everything they wear. For this reason, among others, a city ordinance was recently passed for the purpose, as I believe, to crush me out. It shall not be done. Whether the ordinance be a valid one or not I shall respect it, but shall continue to sell my goods as heretofore at prices with which no other house in town dare compete. While my auctioneer is not permitted to amuse you, an army of competent clerks will be at my store at all times to wait upon you and sell you goods cheaper than they can be purchased anywhere else in the land.

P. RUSSAK & CO.  
Proprietors Poorman's Clothing Store, may11tf

The Reno Water, Land and Light company will commence next week on their new reservoirs on the hill. The company is determined to have sufficient storage capacity to supply Reno with the "high pressure" during a hard winter or a dry summer. It is always doing something to improve its property.

Revolution in Nicaragua.  
Special to the JOURNAL.  
WASHINGTON, May 11.—Cable advices at the state department to-day are to the effect that the revolution in Nicaragua is successful and the revolutionists are now practically in control of the government. Dr. Gaman, Nicaraguan minister, has received similar advices. The dispatch received by Secretary Gresham was sent from San Juan Del Sur, port on the coast of Nicaragua, by Mr. Newell, who is consul at the capital of the country. He states that the revolution commenced April 28th, headed by ex-President Zavalla. The revolutionists hold Granada, Managua, Constaes, Matagalpa and San Juan Del Norte. They are well armed, even having a good supply of gatling guns. The government forces number 2,000, are poorly organized and led, while the revolutionists number fully from 3,000 to 5,000, commanded by prominent generals. The government forces made three unsuccessful attacks on Managua. Martial law was declared and a decree issued for a forced loan of \$800,000. Secretary Herbert has sent the Atlanta to Greytown and the commander of the Alliance at San Francisco was directed to proceed at once with his vessel to San Juan Del Sur. There is no apprehension in official circles that the new rulers of Nicaragua will fail to protect American interests. They will naturally seek to obtain an early recognition from the United States. No information has been received at the state department from Mr. Baker, the new minister to Nicaragua. When last heard from on Saturday, the 6th instant, he was at Panama waiting for a steamer to take him to a Nicaraguan port.

Edward Townsend Dead.  
Special to the JOURNAL.  
WASHINGTON, May 11.—General Edward B. Townsend, for a number of years adjutant-general of the army, died to-day.

Weather Forecast.  
Special to the JOURNAL.  
SAN FRANCISCO, May 11.—The forecast for Nevada is fair weather and cooler.

Can Please All.  
New goods are daily arriving at the Palace Dry Goods and Carpet House, and the proprietor of this well conducted establishment makes it a point to allow nothing in new designs to slip his notice. Among the recent receipts may be mentioned new whip cords, printed challies, black weaves, novelty trimmings, laces, French satteens, Scotch gingham, zephyrs, Scotch tennis flannels, white goods, broadcloths, etc.

Ladies on a shopping tour who cannot be suited at the Palace need seek no further, for everything of the best in latest styles and patterns is kept in stock at the Palace.

Reduction in Rates.  
The Virginia & Truckee railroad has made a material reduction in rates. The Carson Tribune says the management has just issued a commutation ticket card that makes quite a reduction in passenger rates. You can get a round-trip ticket to Virginia for \$2 and the same to Reno for \$3, or ten single trip tickets (good from either point) between Carson and Virginia for \$20 or \$12.50 to Reno. Proportionate reductions are made to all other points on the V. & T. R. R. These reductions will result in more travel, and the railroad will be a gainer instead of a loser by the reduction.

Deserving Praise.  
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. S. J. Hodgkinson, druggist.

H. J. Crampton, the Virginia city soap factory man, was in town yesterday, concluding the final arrangements for the property he desires upon which to locate and build the new soap factory he proposes to establish at Reno. Mr. Crampton understands his business thoroughly and is certain to make a great success of his plant at this place.

For Female weakness use McCall's French Female Pills. Sold by McCullough.
